Product Details

The EvacuLife Escape Evacuation Chair is a single user operation emergency evacuation chair. It glides down stairs easily and smoothly to ensure no heavy lifting or manual handling is required. The evacuation chair is used in multi story to transport individuals and can be easily used by one operator. It has four wheels and will be easy for moving on ground. The evacuation chair supports the patient's safety during transport process with the chest and ankle plastic buckle chest restraints. It is made aluminium alloy and it's key characteristics are characterized by its being light-weight, small-sized, easy-carried, use-safely and easy for sterilization and clean.

The EvacuLife Escape Evacuation Chair is the total solution for any emergency evacuation situation.

- Lower, adjustable easy-grip handle for operator control and comfort
- Lightweight, with compact profile for easy storage and use
- Seat attached all round, allowing easy lateral patient transfers
- Removable, adjustable head pad and comprehensive patient restraint
- Systems to enhance patient comfort and safety
- A wall mounting bracket and dust cover are included at no additional charge.
