Glass Breakers & Emergency Hammers

Introduction

A glass breaker is an essential safety tool for your car, four-wheel drive, caravan, home or workplace. They're designed to quickly and easily break through automotive and double-glazed glass, so in an emergency if you need to evacuate through a locked or jammed window, they are a potentially life-saving device.

Our glass breakers are affordable and come complete with a seatbelt cutter. Compact in size, glass breakers are ideal to store in your glovebox on the go, or in your emergency toolkit at home or work.
