## Evacuation Solutions

---

What started as a simple idea to evacuate bedridden patients during an emergency situation, grew to a passion to create evacuation solutions for every target group. The 'Leave No One Behind' philosophy needs to go mainstream.

Therefore, we are excited and happy that you want to be part of this journey.

Let's get started and leave no one behind!

# S-CAPEPOD

## Evacuation Sheets

*4 Different Models*

Designed To Save Bedridden People In Emergencies

# S-CAPEPOD Evacuation Sheets

## S-CAPEPOD Standard Model

The S-CAPEPOD helps to evacuate bedridden people in emergencies. The S-CAPEPOD is a simple-to-deploy evacuation device, stored below the bed mattress, which when required can be simply unfolded and fitted around the person laid on the bed mattress. For years, the S-CAPEPOD has been "taking care of faster evacuation procedures and safety in tin the healthcare industry" and that isn't just a slick marketing tagline. It's true.

PART NO: TET-5N88888813

PRICE: \$270.00 + GST

---

## S-CAPEPOD Budget Model

Healthcare budgets can be tight. But that doesn't mean you have the compromise on patient safety. This is the low-cost version of the S-CAPEPOD range. It's an evacuation sheet to elevate your emergency preparedness plan, even when your spending plan is tight.

The Budget Model is also permanently placed underneath the bed mattress.

PART NO: TET-5083210000

PRICE: \$198.75 + GST

---

# S-CAPEPOD Evacuation Sheets

## Bariatric S-CAPEPOD (300 KG)

The Bariatric S-CAPEPOD is the only evacuation sheet for larger individuals that permanently sits under the bed mattress.

Extra abdominal belts fixate the patient onto the mattress. Since you're dealing with a larger individual, the patient needs to be firmly fixated onto the mattress to prevent the patient from moving during a vertical evacuation via staircases.

PART NO: TET-5N88888812

PRICE: \$933.75 + GST

---

## Bariatric S-CAPEPOD (500 KG)

This Bariatric S-CAPEPOD has a similar design as the 300KG model. The main difference is the load capacity and the used materials.

This Model is made with Dyneema®, the world's strongest fiber. Due to Dyneema®, the load capacity of this model is 500 KG.

PART NO: TET-5N88888823

PRICE: \$1,912.50 + GST

---

# S-CAPEPLUS

## Evacuation Mats

*5 Different Models*

Evacuation Mats That Leave No One Behind

# S-CAPEPLUS Evacuation Mats

## S-CAPEPLUS Basic Model

The S-CAPEPLUS evacuation mattress allows the safe evacuation of immobile individuals during an emergency. Within 30 seconds anyone can be prepared for evacuation. It's a perfect solution for horizontal and vertical evacuations. The Evacuation Mat can be used by almost anyone due to its simple design. It also keeps the victim secured on the way out. The Basic Model comes standard in a blue portable bag.

PART NO: TET-5N88888886

PRICE: \$783.75 + GST

---

## S-CAPEPLUS Premium Model

This evacuation mattress is made with the world's strongest fiber, Dyneema®. This fiber is 15 times stronger than steel. It contains head blocks to fixate the head and a card board at the feet end to stabilise the weight. The Premium Model is used by many organisations that have perforated staircases inside their building. Organisations often choose a combination between the Basic & Premium evacuation mattress.

PART NO: TET-5NOUT88886

PRICE \$1,496.75 + GST

---

# Package Deals

By providing your customer with a complete package, you are making sure that your customers are making the most of their evacuation mattresses. This also allows you to provide your customer with a 'package deal'. Also, you are making the brands more visible across the premises, stimulating training and awareness. This could also lead to more sales in the end.

## S-CAPEPLUS Basic Package

This package contains four different items:

- S-CAPEPLUS Evacuation Mattress - Basic Model
- Wall Cover storage bag
- A set of screws
- Panorama and photoluminescent safety sign

PRICE: \$1,076.25 + GST

---

## S-CAPEPLUS Premium Package

This package contains four different items:

- S-CAPEPLUS Evacuation Mattress - Premium Model
- Wall Cover storage bag
- A set of screws
- Panorama and photoluminescent safety sign

PRICE: \$1,833.75 + GST

---

# S-CAPEPLUS Evacuation Mats

## S-CAPEPLUS Inflatable Model

Several studies have shown that back pain is a serious health issue for paramedics. Frequent lifting and carrying of patients results into high cumulative loads on the back. These facts indicate that patient transport is the major cause for this problem. That's why ergonomic improvements to transport aids are needed to improve the health and well-being of paramedics. The S-CAPEPLUS Inflatable Model is designed to smoothen the process of a medical evacuation and reduce the physical strain for paramedics. It also provides much more patient comfort.

PART NO: TET-5NINFL6021

PRICE: \$4,300.00 + GST

---

## S-CAPEPLUS Youth Model

Children or people with a short stature that suffer from reduced mobility are not able to escape independently during an emergency evacuation. The S-CAPEPLUS Evacuation Mattress was redesigned to bring these children and shorter individuals to a safe area. The Youth Model of the S-CAPEPLUS can be deployed in seconds and is ready for use in a few simple steps.

PART NO: TET-5N88888831

PRICE: \$1,121.25 + GST

---

The Youth Model comes standard in a green Wall Cover.

# S-CAPEKIDS Evacuation Mat

## S-CAPEKIDS Evacuation Mat

"Leave no single baby behind during an emergency evacuation." That is the philosophy of this evacuation mattress. The evacuation device consists of four different compartments. This allows one or two carers to evacuate four babies simultaneously. With every S-CAPEKIDS evacuation mattress that you order, you will get an extra green Wall Cover which can be mounted to the wall.

PART NO: TET- 5N8888600K

PRICE: \$1,833.75 + GST

---

# Accessories for Evacuation Mats

## Wall Cover Green

This storage option for your evacuation mattress is also designed to protect the S-CAPEPLUS. Suitable for the Basic & Premium model. When you order 10 units, the print can be customised.

PART NO: TET-5N88888802

PRICE: \$243.75 + GST

---

## Storage cabinet

The storage cabinet for S-CAPEPLUS provides high visibility, safe storage and immediate access to the evacuation mattress. A strap system keeps the Evacuation Mattress safe and secure inside the cabinet.

PART NO: TET-5735945281

PRICE: \$1,121.25 + GST

---

## Panorama Picto Sign

This photoluminescent sign (200x200 mm) highlights the location of your S-CAPEPLUS. It can be placed above a Wall Cover or storage cabinet. Due to the panoramic shape, the sign can be read from different angles.

PART NO: TET-PICTO

PRICE \$71.25 + GST

---

If you order 10 units or more, you can personalise the Wall Cover. For example, with your company logo. The charge for personalisation is \$20.00 + GST, extra per unit.

# Retmex Rescue Sheets

## *4 Different Models*

Designed For Rescue Workers, Trauma Teams,  
Paramedics, Firefighters, and First Aid Specialists

### Retmex - Nomex Model

The Nomex® Model is a 2-in-1 rescue solution. It allows you to rescue a person AND it can be used to extinguish a fire. When a person's clothing is on fire, you can use the Nomex Model to extinguish the flames. This unique addition to the rescue sheet makes it one-of-a-kind and allows you to move fast when every second counts. To ensure that you can conquer the most critical situations, the Rescue Sheet is made with first-class materials to ensure quality and durability: Nomex®, Kevlar®, retro reflective straps and highly advanced webbing

PART NO: TET-1099602001

PRICE: \$633.75 + GST

---

### Retmex - Comfort Model

The Comfort Model model has PVC handles which increases comfort for the rescuers. It also comes in a small portable bag. The foot sack creates extra stability when placing a victim onto the Rescue Sheet. The Comfort Model comes in a small portable bag. Complies with EN597-1 & EN597-2 (fire retardant).

PART NO: TET-10PVC76590

PRICE: \$221.25 + GST

---

### Retmex - Compact Model

The Compact Model comes with a carabiner to securely clip the Rescue Sheet to your clothing. The Compact Model is ready to go wherever you are. The foot sack creates extra stability when placing a victim onto the Rescue Sheet.

Complies with EN597-1 & EN597-2 (fire retardant).

PART NO: TET-1099876610

PRICE: \$202.50 + GST

---

## Retmex - Bariatric Model

This Retmex is designed to rescue larger-sized individuals. With a length of 220 cm and a width of 120 cm, the Bariatric Model fits different body types.

Since this Retmex has 18 carry handles, it is easy to stand around the rescue sheet with multiple workers and efficiently work together without standing in each other's way. The foot sack ensures extra stability for the victim and is also helpful if you need to move up or down a staircase.

The Bariatric Model comes in a portable bag to make transport quick and easy.

The device has been safely tested up to 385 KG. Similar to the other Rescue Sheets, the Bariatric Model also complies with EN597-1 & EN597-2 on fire retardancy.

PART NO: TET-109960219

PRICE: \$720.00 + GST

---

# Transfer Equipment

'Simplifying body movement & preventing injuries with  
Tetcon's Transfer Equipment.'

## Bodypod Transfer Mattress

Bodypod is a transfer mattress that reduces physical strain for people working in the body removal service. It can be used as an alternative for brancards or stretchers when there's limited space on stairs, when you need to transfer a deceased person in a confined space or when you need to transfer via a rotating staircase.

Going down the stairs is quiet, easy and safe.

PART NO: TET-5N85250016

PRICE: \$1,481.25 + GST

---

## Body Slider

Reduce physical stress by implementing the Body Slider Method. The Body Slider is designed to minimise injuries whilst moving or transferring people. This is a very effective aid for turning people in bed.

The Body Sliders are being supplied per 25 units.

PART NO: TET-10PVC76590

PRICE: \$82.50 + GST

---

## EZ Slide

The Ferno EZ Slide enables effortless transfer of supine patients from one surface to another.

A specially coated waterproof sleeve that encircles a padded inner board enables patients to be gently pushed or pulled laterally to another surface by just one person. No lifting is required in the manoeuvre thus effectively reducing back injuries, patient discomfort, anxiety or potential friction burns during transfer.

The EZ Slide is radiolucent, lightweight, compact and comes with carry handles.

PART NO: FWEEZSLIDE

PRICE: \$265.00 + GST

---

## Psychiatric Emergency Transfer System

When patients with psychological disorders or mentally confused people (e.g. due to drug abuse) suffer from meltdowns – it can be incredibly difficult and downright dangerous for the staff to transport this kind of people to a safer area (e.g. ambulance or solitary confinement). This transfer system can help you do the job. It protects you and the patient. Designed for transport and transfers.

It's being used by prisons, psychiatry facilities, security guards, ambulances, etc.

PART NO: TET-9100ZW00DY

PRICE: \$1,856.25 + GST

---

# Key facts you should know

## PLACE AN ORDER\*, PLANT A TREE

When your order exceeds €1000 excl. VAT, Tetcon will plant a tree. This is done in collaboration with Trees For All.

## 40+ COUNTRIES ON 6 CONTINENTS

The 'Leave No One Behind' philosophy is spreading across the globe. You can find Tetcon's equipment already in more than 40 countries.

## REDUCING PLASTIC WASTE

In every step of the supply chain, Tetcon is reducing the use of plastic packaging. To protect our oceans, sealife and future generations.

## A POWERHOUSE IN TEXTILE SOLUTIONS

We design, develop and market a wide range of evacuation equipment. No matter what the requirement, Tetcon can suit your wishes.

**It's decision time. Let's leave no one behind!**  
**Contact us now for more information.**

## Digital Evacuation School

Some manufacturers of evacuation equipment insist on regular face-on-face training. This is costing you money and time. Did you know you could save a lot of time and costs on training your staff? And wouldn't it feel great if you have some more time left to spend on your busy job? Tetcon's Digital Evacuation School will help you to overcome your training challenges. The platform will help your staff members to train internally. Oh, and it's completely free!
